There you are!

I've been waiting for you to open this book. Who am I? My name is Res. I'm a game designer, but some of you already know that.

And this is my friend Pes. She's a robot designer. But don't let her name fool you! In Turkish, pes can mean "I give up", but that's not why she's called Pes. She got her name because he designs robots that make everyone say, "Pes!" as in, "Wow!"

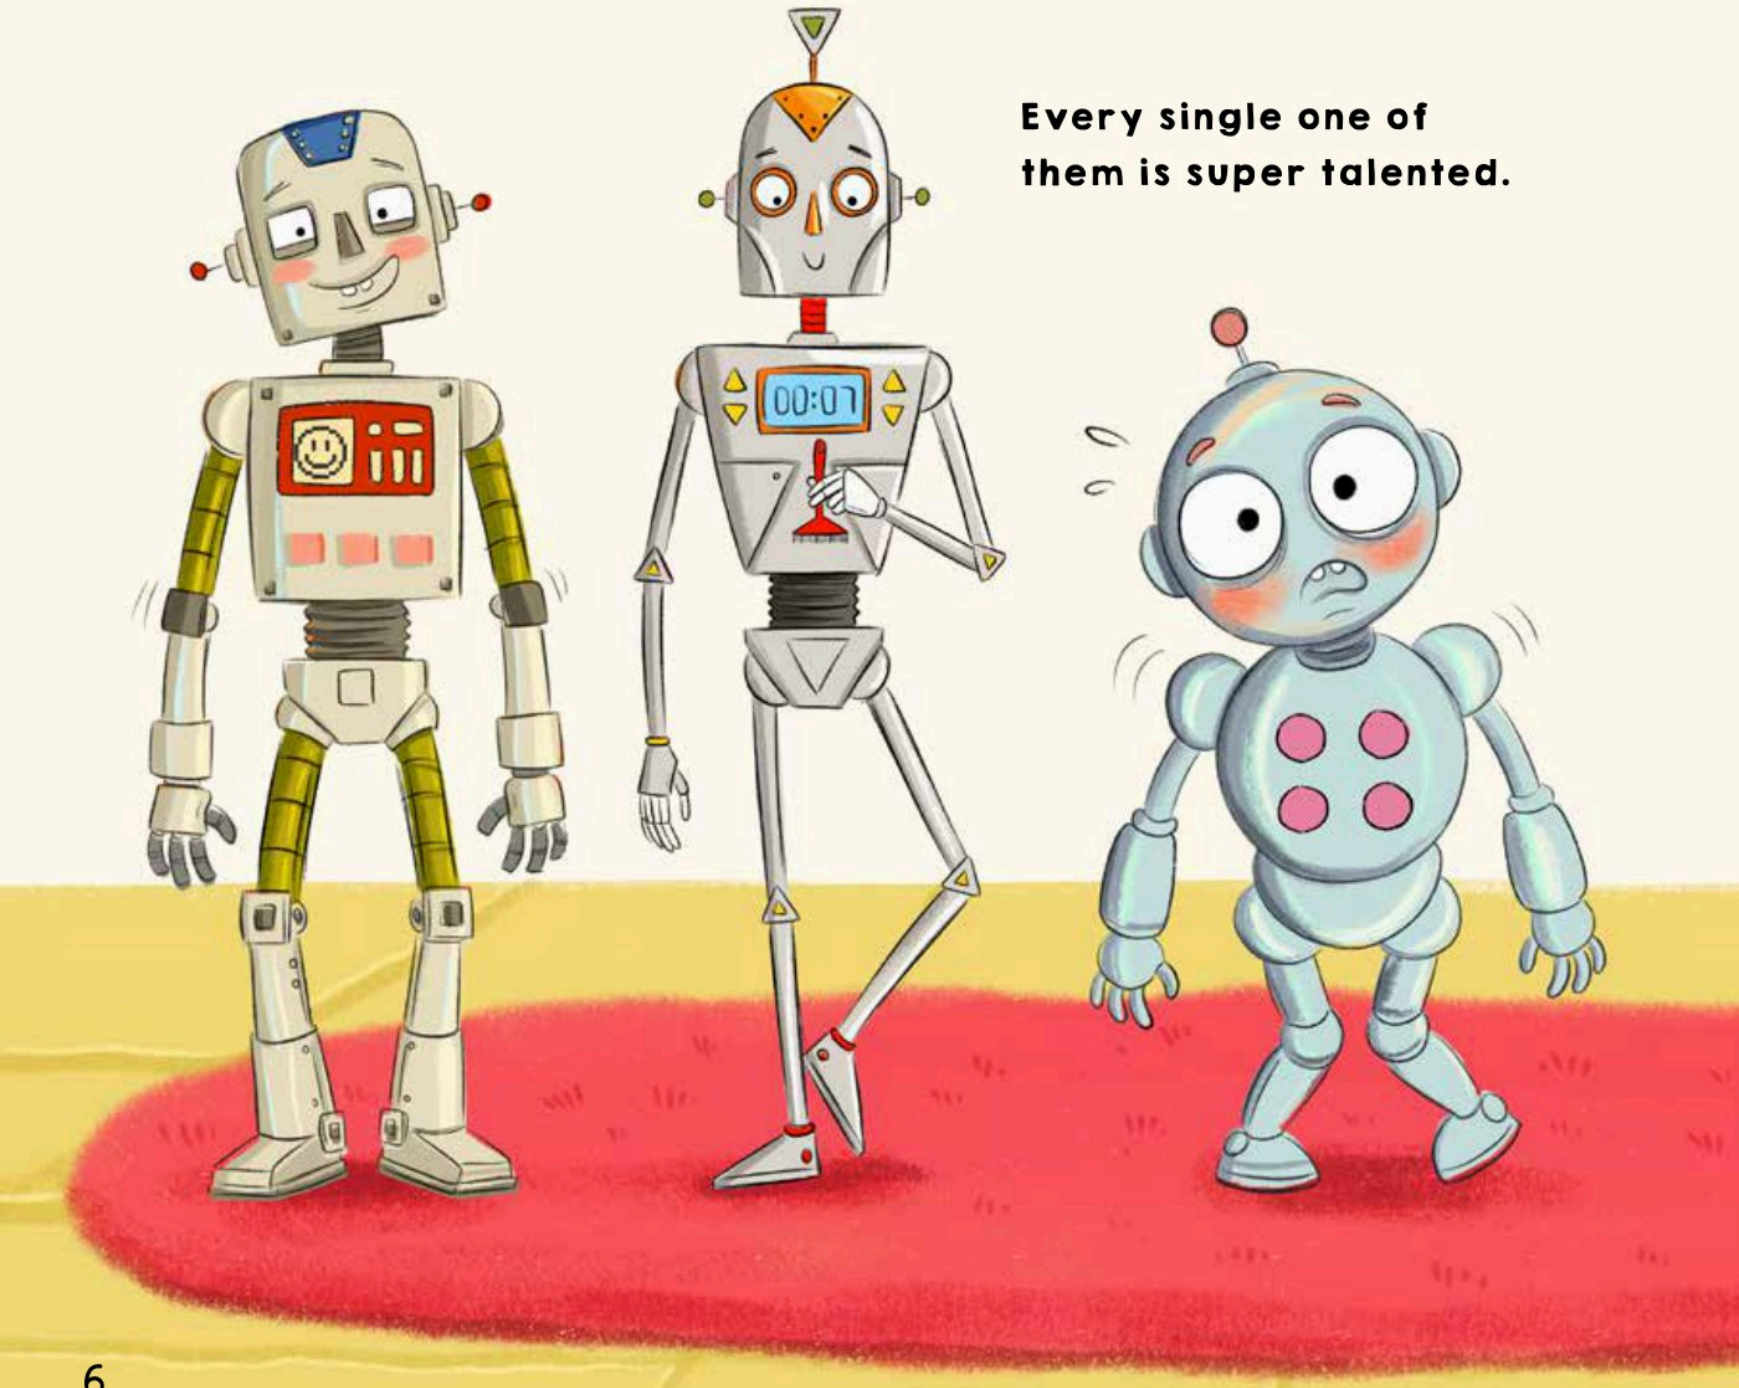

Come closer!

We're going to show you the amazing robots we've designed together.

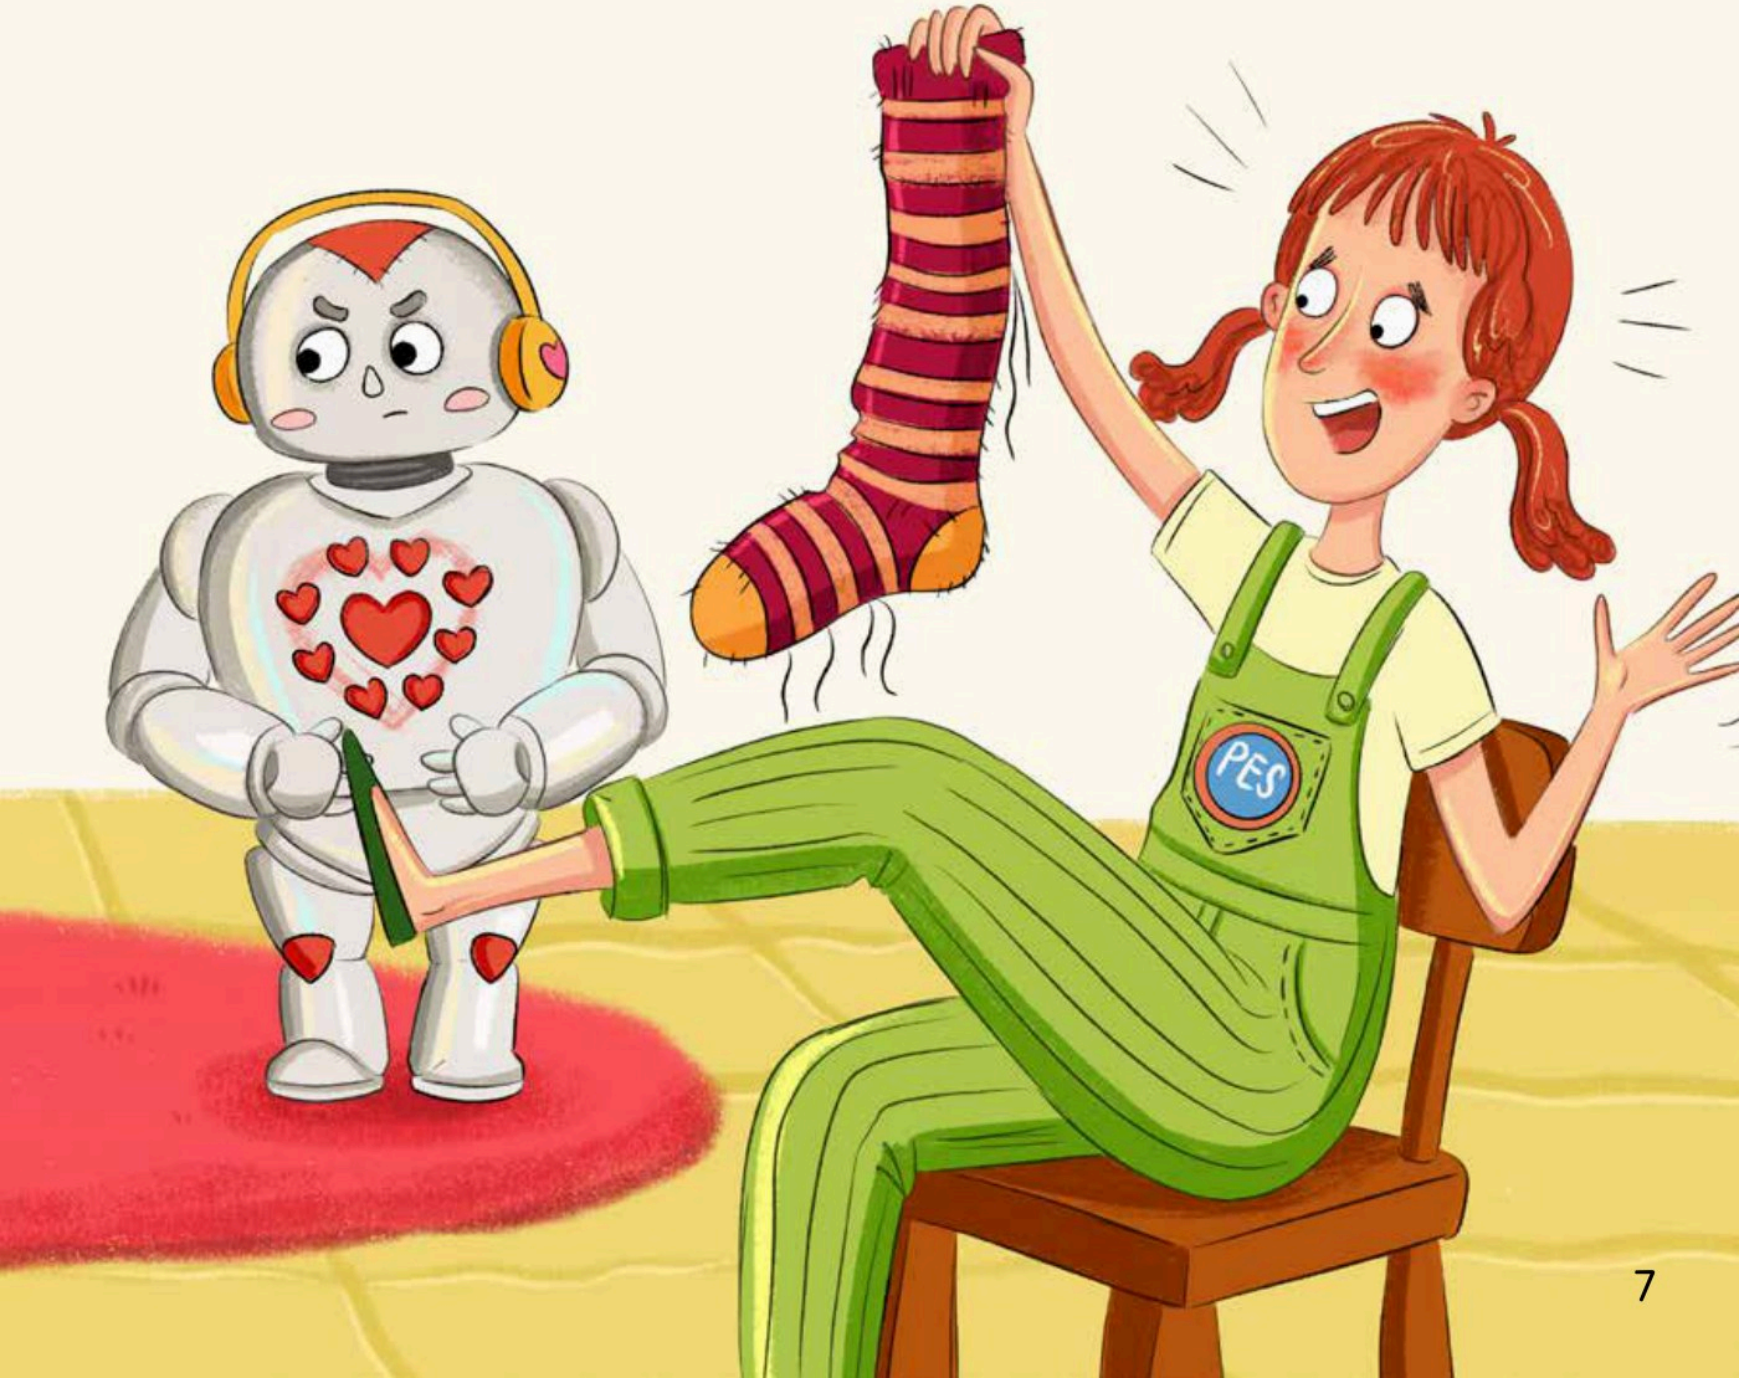

Ta-da-da-daaaaaaa...

Introducing... the game-loving roboooooots!

Every single one of them is super talented.

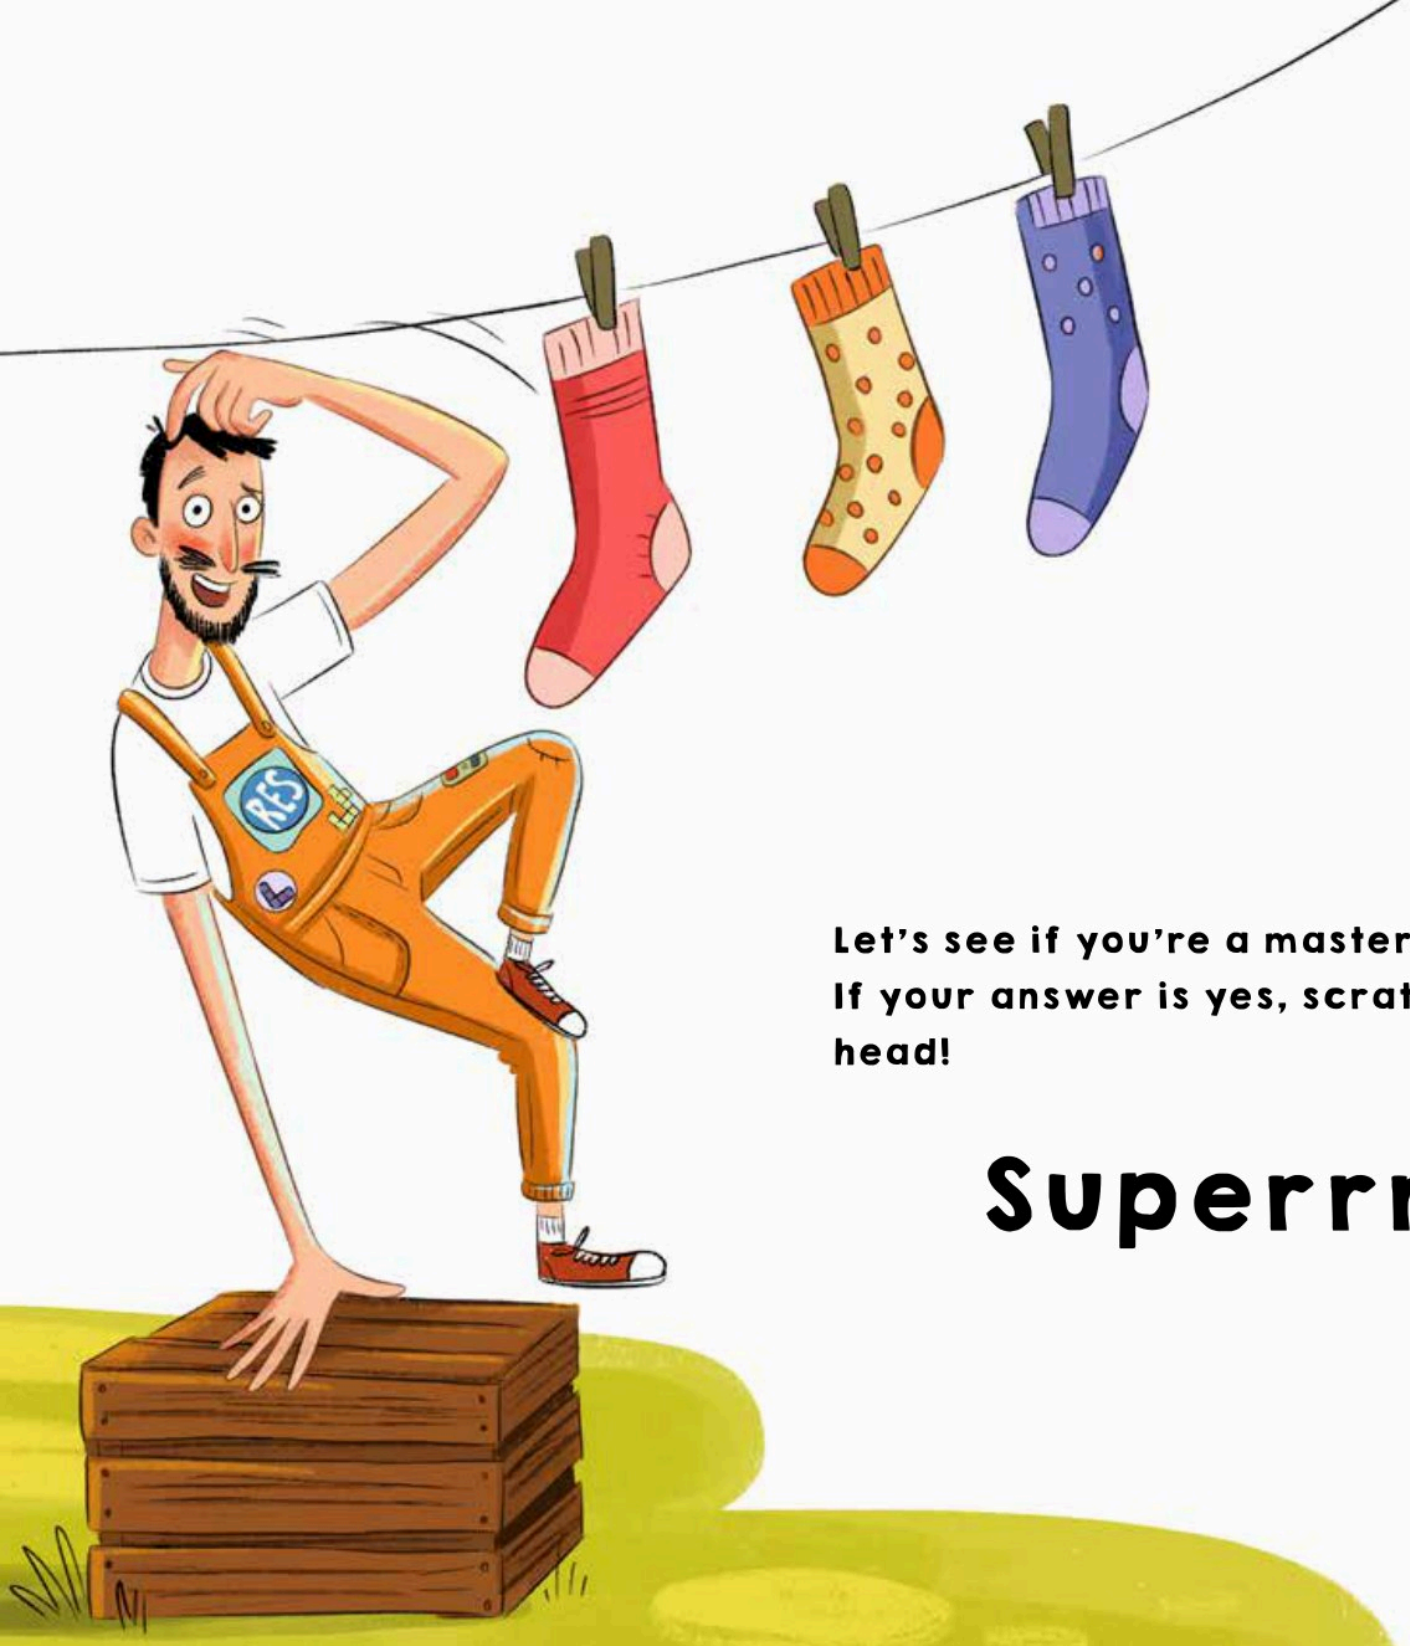

But there's a funny trick to getting them to work: each robot has its own special pair of socks! Choose the right pair, and the robot will put them on and spring into action.

As I said, these robots love to play!

Pay close attention to how each robot is feeling and which shapes it likes. That way, you can find the right socks and get it moving!

Let's see if you're a master gamer! If your answer is yes, scratch your head!

Superrr!
